MODERATOR

Julie Harris
Global banking chief digital executive
Bank of America

In her role, Harris is charged with developing and executing the digital strategy across business banking, global commercial banking, and global corporate and investment banking. Previously, Julie was the enterprise credit risk information strategy and allowance executive in global risk management at Bank of America, where she was responsible for the company’s allowance for loan losses on the balance sheet and the related annual provision expense of $3 billion.

Harris joined the company’s Finance Management Analyst Program in 2000 and has served in a number of leadership roles since then. She most recently was CFO for global banking coverage responsible for global corporate banking, global commercial banking and business banking. She was named a managing director in 2013.

Harris is based in Charlotte, where she was selected as one of Charlotte's 40 Under 40 Leaders in Business by the Charlotte Business Journal in 2015 and served as the chair of the Arts and Science Council Campaign for Global Risk in 2017. She is on the Board of Advisors at the Belk College of Business and the Foundation Board at the University of North Carolina Charlotte.

Pawan Divakarla
Head of data and analytics strategy
Progressive Insurance

Divakarla has built an expertise in high-end analytics and uses it in both strategic and tactical planning and decision-making.

He has more than 15 years of experience in the insurance industry and considers himself a life learner, working with both people and data to drive innovation and business value.
Bill Priemer  
President and CEO  
Hyland

Priemer joined Hyland in 1997 as vice president of marketing. He became vice president of sales and marketing in 2001, chief operating officer in 2005 and chief executive officer in 2013.

Prior to joining Hyland, Priemer held marketing roles at FedEx and sales roles at AST, a personal computer manufacturer.

Priemer received a master’s degree in marketing from Northwestern University and undergraduate degrees from Boston College. He serves on the boards of University Hospitals Cleveland Medical Center, Business Volunteers Unlimited, Westfield Bank and 7Signal.

Michael Trebilcock  
Managing director, Office of Development  
MCPc

Trebilcock is the managing director, Office of Development at MCPc, a global data protection company. MCPc’s chain-of-custody security solution is a holistic end-to-end lifecycle management protocol that protects data, manages the complexity and sustainability of technology, ensures consistency in security and mitigates business risk.

Trebilcock is part of a team that works to develop innovative technology solutions for unique business issues.

He also is passionate about helping to solve the digital divide, a vexing national problem for underserved communities who do not have easy access to technology or internet connectivity – particularly during the pandemic.

Trebilcock is a graduate of the University of South Florida where he earned his bachelor of general studies, environmental science and policy.
